

ENAERIOS, LIMASSOL

Alef Beta Neapolis

PARTIALLY OCCUPIED

THE PROJECT

Ground was broken in Enaerios in 2023, on a site chosen for a simple reason: it sits at the point where the neighborhood's quiet residential streets meet the pace of central Limassol. Two buildings rise from that site, conceived as a single composition. The first building, ten apartments, was completed and has been occupied since 2025; the second, twenty apartments, is on track for mid-2026.

The commitment through every stage has been the same: floor plans that flex to how people actually live, and a material palette chosen to age well rather than simply photograph well. What sets Alef Beta Neapolis apart in Enaerios is what comes with it: a shared pool and fully equipped gym, facilities no other development in the neighborhood currently offers.

DESIGN & CRAFTSMANSHIP

Designed by RNA Design Studio – two buildings conceived as one composition, delivered in phases, with a shared pool and gym unlike anything else in Enaerios.

SPECIFICATIONS

BUILDINGS

2

APARTMENTS

30 (10 + 20)

AMENITIES

Shared pool, fully equipped gym

STATUS

Building 1 occupied since 2025 —
Building 2 due mid-2026

PROJECT TYPE

New construction
