

KALYVES, CRETE

The River

PRE-CONSTRUCTION

THE PROJECT

The River sits 130 metres from its sister project, 196 Kalyves, sharing the same coastline and the same standard – but built to its own rhythm. A collection of boutique garden studios, one- and two-bedroom, and duplex residences is anchored by landscaped gardens and a private infinity pool, closer to the earth than to the skyline.

Every home is delivered curated and styled, down to the furniture and linens, and owners gain exclusive access to the neighboring 196 Wellness Club – the shoreline itself just 200 metres away.

DESIGN & CRAFTSMANSHIP

Developed by Cretan Coast, in partnership with Alef Beta Properties – architecture by Nantia, construction delivered with Alpha Omega.

SPECIFICATIONS
